

Lorna and the Ocelot

Moving furniture
and Folks in story,

not so difficult, or
the running sore. so

Lorna must from A
to B proceed.

"Lorna proceeded, etc"
--flat, pedesestrian.

"Lorna noted the Ocelot's
smile when..."

Better, advanfcng plot
or something.

Best, in that regard,
"Lorna winced at Mr Under-
bee's smile, memories

of the Ocelot's forever
on the boil."

Impressionistic:
Lorna ocelot smile Underbee...
piles of war corpses.

Post post post why very nearly everything:
cocoiae riffs of a graduate student
know to be clever and triplel tres literary,
pretending to be devoid of coherence.

(no example. All the white- & webspace
in the world being insufficient.)
